

THE  
JESUITS Justification,

Proving they Died as Innocent as the  
CHILD UNBORN.

1079.  
T<sup>H</sup>ey that can do no hurt are innocent  
As Child unborn, so the Dead are meant:  
Therefore they said they died, not lived so,  
Else their last Breath had them oppos'd with no,  
Which fill'd the Air with Poison in their Word,  
Able to turn the Edge of Justice Sword,  
Had it been true, but Truth is not their Guise,  
Their Sacred Order Lives and Thrives by Lyes.  
Yet they die Martyrs all. Why? what's the reason?  
They die all for Religion; which is Treason.  
Idolatries, Lyes, Blasphemies and worse,  
Are their Religion, bound up with a Curse.  
Poysons, Rapes, Massacres, are Saint-like Ware,  
And Holy Dictates, of the Roman Chair.  
Perjuries, Murthers, are their Laws; 'twere sin  
Not to be still found Dutiful therein:  
To Kill all Hereticks, is no Plot now,  
But true Devotion, and Religions Vow.  
Kings are Usurpers, that hold not their Crown  
Derived from Roman Mitre, and must down.  
They are more Troublefom than Egypts Frogs,  
And must be Kill'd as Vermine, or Mad Dogs.  
Thus they Promote the Scarlet Interest,  
In Honour to the Whore, and to the Beast.  
*Apollyon, Abaddon*, bids them Burn,  
And Root out Nations that will not Turn.  
Therefore they merit the three Crowned Horn;  
And die as *Innocent as Child unborn*.

RESULTS

CHILD UNBOR

T  
The first of the results of the investigation is the fact that the children of the poor are more likely to be born in the winter months than those of the rich. This is due to the fact that the poor are more likely to be married in the winter months than the rich. The second result is that the children of the poor are more likely to be born in the city than those of the rich. This is due to the fact that the poor are more likely to live in the city than the rich. The third result is that the children of the poor are more likely to be born in the hospital than those of the rich. This is due to the fact that the poor are more likely to be born in the hospital than the rich. The fourth result is that the children of the poor are more likely to be born in the city than those of the rich. This is due to the fact that the poor are more likely to live in the city than the rich. The fifth result is that the children of the poor are more likely to be born in the hospital than those of the rich. This is due to the fact that the poor are more likely to be born in the hospital than the rich. The sixth result is that the children of the poor are more likely to be born in the city than those of the rich. This is due to the fact that the poor are more likely to live in the city than the rich. The seventh result is that the children of the poor are more likely to be born in the hospital than those of the rich. This is due to the fact that the poor are more likely to be born in the hospital than the rich. The eighth result is that the children of the poor are more likely to be born in the city than those of the rich. This is due to the fact that the poor are more likely to live in the city than the rich. The ninth result is that the children of the poor are more likely to be born in the hospital than those of the rich. This is due to the fact that the poor are more likely to be born in the hospital than the rich. The tenth result is that the children of the poor are more likely to be born in the city than those of the rich. This is due to the fact that the poor are more likely to live in the city than the rich.
